Akazawa, K. **115**, 175
Allameh, A. **115**, 73
Aoyagi, M. **115**, 175
Aziz, N. **115**, 1

Banerjee, M. **115**, 85
Boozer, C.N. **115**, 107
Boscardin, J. **115**, 1

Chehade, J.M. **115**, 101

Duchossoy, Y. **115**, 21
Dunn-Walters, D.K. **115**, 85

Englander, E.W. **115**, 139

Fahey, J.L. **115**, 1
Farahani, M. **115**, 73
Furuichi, Y. **115**, 189

Gorre, M.E. **115**, 1
Goto, M. **115**, 189
Greeley, G.H., Jr **115**, 139
Greenberg, J.A. **115**, 107

Han, E.-S. **115**, 157
Hilsenbeck, S.G. **115**, 157

Imamura, O. **115**, 189
Ingram, D. **115**, 199

Khatib, A.-M. **115**, 21
Kubo, C. **115**, 61
Kuehl-Kovarik, M.C. **115**, 39

Lee, H.-M. **115**, 139

Magnusson, K.R. **115**, 39
McBride, T. **115**, 127
Messai, H. **115**, 21
Miller, R.A. **115**, 199
Mitrovic, D.R. **115**, 21
Mooradian, A.D. **115**, 101

Nadon, N.L. **115**, 199
Nelson, J.F. **115**, 157
Nishanian, P. **115**, 1

Ohsugi, I. **115**, 189

Panasyuk, A. **115**, 21
Partin, K.M. **115**, 39
Premkumar, L.S. **115**, 39

Richardson, A. **115**, 157
Richardson, A.G. **115**, 199

Sadeghi, H. **115**, 1
Sanderson, J.D. **115**, 85
Satoh, M. **115**, 189
Schnelle, J.F. **115**, 1
Sogawa, H. **115**, 61
Spencer, J. **115**, 85
Sugawara, M. **115**, 189
Sugimoto, M. **115**, 189

Thomas, J.K. **115**, 1

Ward, K. **115**, 107
Warner, H.R. **115**, 199
Wei, H. **115**, 107

Yamamoto, K. **115**, 175
Yamamoto, M. **115**, 175

Zarghi, A. **115**, 73

Subject index of volume 115

Activation; Immune deficiency; Phenotypic features; Correlations **115**, 1

Adiposity; Aging; Leptin; Obesity; Hyperinsulinemia **115**, 101

Aflatoxin B1; Glutathione conjugation; Liver; Kidneys; Weanling rat; HPLC **115**, 73

Aged; Stretch-activated channels; Muscle; Eccentric contractions **115**, 127

Ageing; Caloric restriction; Human clinical trials **115**, 199

Ageing; Spleen; GALT; Lymphocytes; CD8; CD4 **115**, 85

Aging; Calorie restriction; Gene expression **115**, 157

Aging; Leptin; Adiposity; Obesity; Hyperinsulinemia **115**, 101

Aging; NMDA; Subunit; Ifenprodil; TEVC **115**, 39

Autoimmune; Caloric restriction; Fasting; Longevity **115**, 61

Bax; p53; IGFBP-3; IGF-1; Bcl-2 **115**, 139

Bcl-2; p53; IGFBP-3; IGF-1; Bax **115**, 139

Caloric restriction; Ageing; Human clinical trials **115**, 199

Caloric restriction; Fasting; Autoimmune; Longevity **115**, 61

Caloric restriction; Metabolic rate; DNA oxidative damage; Glycation; Theories of aging **115**, 107

Calorie restriction; Aging; Gene expression **115**, 157

cAMP; DNA synthesis; Collagen synthesis; Phorbol ester-PMA; PKC; Proteoglycan synthesis **115**, 21

CD4; Ageing; Spleen; GALT; Lymphocytes; CD8 **115**, 85

CD8; Ageing; Spleen; GALT; Lymphocytes; CD4 **115**, 85

Collagen synthesis; DNA synthesis; cAMP; Phorbol ester-PMA; PKC; Proteoglycan synthesis **115**, 21

Correlations; Immune deficiency; Activation; Phenotypic features **115**, 1

DNA oxidative damage; Caloric restriction; Metabolic rate; Glycation; Theories of aging **115**, 107

DNA synthesis; cAMP; Collagen synthesis; Phorbol ester-PMA; PKC; Proteoglycan synthesis **115**, 21

Eccentric contractions; Stretch-activated channels; Aged; Muscle **115**, 127

Fasting; Caloric restriction; Autoimmune; Longevity **115**, 61

Fibroblast; TGFβ-1; Werner syndrome; mRNA **115**, 189

PII: S0047-6374(00)00139-1

GALT; Ageing; Spleen; Lymphocytes; CD8; CD4 **115**, 85

Gene expression; Aging; Calorie restriction **115**, 157

Glutathione conjugation; Aflatoxin B1; Liver; Kidneys; Weanling rat; HPLC **115**, 73

Glycation; Caloric restriction; Metabolic rate; DNA oxidative damage; Theories of aging **115**, 107

HPLC; Aflatoxin B1; Glutathione conjugation; Liver; Kidneys; Weanling rat **115**, 73

Human clinical trials; Ageing; Caloric restriction **115**, 199

Hyperinsulinemia; Aging; Leptin; Adiposity; Obesity **115**, 101

Ifenprodil; NMDA; Subunit; Aging; TEVC **115**, 39

IGFBP-3; p53; IGF-1; Bcl-2; Bax **115**, 139

IGF-1; p53; IGFBP-3; Bcl-2; Bax **115**, 139

Immune deficiency; Activation; Phenotypic features; Correlations **115**, 1

Kidneys; Aflatoxin B1; Glutathione conjugation; Liver; Weanling rat; HPLC **115**, 73

Leptin; Aging; Adiposity; Obesity; Hyperinsulinemia **115**, 101

Ligament fibroblasts; Prolapsus uteri; Pelvic support disorders **115**, 175

Liver; Aflatoxin B1; Glutathione conjugation; Kidneys; Weanling rat; HPLC **115**, 73

Longevity; Caloric restriction; Fasting; Autoimmune **115**, 61

Lymphocytes; Ageing; Spleen; GALT; CD8; CD4 **115**, 85

Metabolic rate; Caloric restriction; DNA oxidative damage; Glycation; Theories of aging **115**, 107

mRNA; TGFβ-1; Werner syndrome; Fibroblast **115**, 189

Muscle; Stretch-activated channels; Aged; Eccentric contractions **115**, 127

NMDA; Subunit; Aging; Ifenprodil; TEVC **115**, 39

Obesity; Aging; Leptin; Adiposity; Hyperinsulinemia **115**, 101

Pelvic support disorders; Ligament fibroblasts; Prolapsus uteri **115**, 175

Phenotypic features; Immune deficiency; Activation; Correlations **115**, 1

Phorbol ester-PMA; DNA synthesis; cAMP; Collagen synthesis; PKC; Proteoglycan synthesis **115**, 21

p53; IGFBP-3; IGF-1; Bcl-2; Bax **115**, 139

PKC; DNA synthesis; cAMP; Collagen synthesis; Phorbol ester-PMA; Proteoglycan synthesis **115**, 21

Prolapsus uteri; Ligament fibroblasts; Pelvic support disorders **115**, 175

Proteoglycan synthesis; DNA synthesis; cAMP; Collagen synthesis; Phorbol ester-PMA; PKC **115**, 21

Spleen; Ageing; GALT; Lymphocytes; CD8; CD4 **115**, 85

Stretch-activated channels; Aged; Muscle; Eccentric contractions **115**, 127

Subunit; NMDA; Aging; Ifenprodil; TEVC **115**, 39

TEVC; NMDA; Subunit; Aging; Ifenprodil **115**, 39

TGFβ-1; Werner syndrome; Fibroblast; mRNA **115**, 189

Theories of aging; Caloric restriction; Metabolic rate; DNA oxidative damage; Glycation **115**, 107

Weanling rat: Aflatoxin B1; Glutathione conjugation; Liver; Kidneys; HPLC **115**, 73

Werner syndrome; TGFβ-1; Fibroblast; mRNA **115**, 189
